DEPARTMENT OF THE TERRITORIAL SECRETARY,

REGINA, *February 4, 1902.*

To His Honour

AMÉDÉE EMMANUEL FORGET,

Lieutenant Governor of the North-West Territories.

SIR,—

I have the honour to submit herewith the Annual Report of the Department of the Territorial Secretary for the year 1901.

I have the honour to be, Sir,

Your obedient servant,

GEO. H. V. BULYEA,

Territorial Secretary.

DEPARTMENT OF THE TERRITORIAL SECRETARY,

REGINA, *January 2, 1902.*

The Hon. G. H. V. BULYEA,
Territorial Secretary,
Regina.

SIR,—

I have the honour to submit the Report of the Department of the Territorial Secretary for the year ended 31st December, 1901.

Towards the latter end of the year of 1897 the Executive Committee was succeeded by the Executive Council when it was found necessary, in order to carry the public service of the Territories systematically, to divide the work previously administered by the Executive Committee into provisional departments of State presided over by a member of the Executive Council. An Order in Council to this effect was made on the 8th October, 1897. One of the new departments was that of the Secretary of State for the Territories. The same Order prescribes, provisionally, the duties of the Department as follows: To conduct all official correspondence on behalf of the Government; to keep the Seal of the Territories; to act as Territorial Registrar; and the Department to be charged with the organisation of municipalities, and statute labor districts and the incorporation of companies. Later in the same year an Ordinance was passed by the Legislative Assembly defining the duties of the Territorial Secretary as those which are assigned by law and custom to provincial secretaries and registrars of the different Provinces of the Dominion in so far as they may be applicable to the North-West Territories; making him the keeper of the Seal of the Territories and the issuer of all letters patent, commissions and other documents under that Seal, and the keeper of all registers and archives of the Territories. It made him the registrar of the Territories; the Department also issues certificates under its own Seal and controls the legislative library. The office of the Clerk of the Legislative Assembly is also under this Department and, in the absence of that official, the work is carried on in this office. Subsequent legislation has transferred the organisation of local improvement districts to the Department of Public Works.

The duties of the Territorial Secretary include the administration of the following Ordinances:

- An Ordinance respecting the Medical profession;
- An Ordinance respecting Dentistry;
- An Ordinance respecting Chemists and Druggists;
- An Ordinance respecting Veterinary Surgeons;
- An Ordinance respecting the Incorporation of Joint Stock Companies;
- An Ordinance to authorise the changing of the names of incorporated companies;
- An Ordinance respecting Foreign Companies;
- An Ordinance respecting Mining Companies;
- An Ordinance respecting the manufacture of Butter and Cheese;
- An Ordinance respecting Benevolent and other Societies;
- An Ordinance respecting Mechanics' and Literary Institutes;
- An Ordinance respecting Cemeteries.

The Mutual Insurance Ordinance was administered by this Department until repealed at the last session of the Legislative Assembly.

I am pleased to be able to report that during the past year this Department has produced an exceptionally large revenue, as follows:

Certificates under Territorial Seal.....	\$ 35.70
Certificates under The Veterinary Surgeons Ordinance..	25.00
Under The Companies Ordinance.....	1,486.00
Under The Mutual Hail Insurance Ordinance.....	60.00
Under The Foreign Companies Ordinance..	13,910.00
	<u>\$15,516.70</u>

This is largely in increase of previous years as the subjoined table will show.

COMPARISON of Receipts for years 1899, 1900 and 1901.

Source of Revenue.	1899	1900	1901
Certificates under Territorial Seal...	\$.....	\$ 5.70	\$ 35.70
Veterinary Surgeons' Certificates...	20.00	15.00	25.00
Fees under Companies Ordinance...	725.00	300.00	1,486.00
Fees under Mutual Hail Insurance Ordinance.....	60.00
Fees under Foreign Companies Ordinance.....	1,405.00	1,240.00	13,910.00
Totals.....	<u>2,150.00</u>	<u>1,560.70</u>	<u>15,516.70</u>

Under The Medical Ordinance of 1888 the College of Physicians and Surgeons of the North-West Territories was constituted, and in it is vested the admission upon its register of those possessing the necessary qualifications or passing an examination prescribed by its council and the erasure, within certain limitations, of such, as in its opinion, have been guilty of unprofessional conduct or convicted of any indictable offence. The duties of the Department in relation to this Ordinance consist mainly of correspondence with those outside the Territories who desire to inform themselves of the regulations respecting registration and keeping a record of those persons whose names have been erased from the Medical Register of Great Britain as furnished from time to time through the Secretary of State.

In 1892 the Dental Association was created to regulate the profession of dentistry within the Territories by registering those submitting evidence of holding the required qualifications or receiving a recommendation from the dental examiners of the Territories. Should, however, an applicant for registration be refused by the association he has a right of appeal to the Lieutenant Governor in Council with the result that not infrequently the appeal has been sustained and the secretary treasurer of the association directed to register the applicant. The administration of this Ordinance, so far as the Department is concerned, entails the correspondence consequent on appeals from the ruling of the association and replies to various enquiries respecting admission to the profession in the Territories.

The interests of the profession of pharmaceutical chemists were, in

1391-2, vested in the Pharmaceutical Association with powers of registration and examination of those desiring to practice in the Territories. A small amount of correspondence naturally arises respecting registration and the regulations respecting the sale of poisons.

No person is allowed to practice the profession of veterinary surgery in the Territories without having submitted satisfactory proof to the Territorial Secretary that he is the holder of a diploma issued by any body of association empowered to do so by law in any part of His Majesty's Dominions, or that he was registered as a veterinary surgeon under the provisions of Ordinance Number 12, of 1892, and received a licence.

The change in The Companies Ordinance that came into force on the 12th June, 1901, has greatly simplified the work both of this Department and of those seeking incorporation. That of the Department because the comparatively cumbersome machinery of the issue of letters patent is replaced by filing the memorandum of association. The abrogation of the notices in the official gazette of the intention of the promoters of a company to apply for incorporation under letters patent saves them a large amount of time and some little expense. It may, I think, be accepted as a proof of public appreciation of the change of method, no less than an indication of the rapidly increasing prosperity of the Territories, that since the new Ordinance came into force a larger number of joint stock companies have been incorporated than were registered in the whole of any previous year and involving an amount of capital greater than that of all the joint stock companies incorporated under letters patent in the Territories combined. At the close of 1901 several companies were preparing to file their memoranda of association, and there will undoubtedly be an ever increasing number of companies registered each year as time goes on and the prosperity, of what is now the Territories, increases. In the appendix a synopsis is given of the companies incorporated in the Territories.

The Foreign Companies Ordinance of 1901 came into force on the 1st October of last year. Strenuous effort has been made to develop the scope of this Ordinance by bringing it to the notice of every extra Territorial company doing business within our limits. To this end provincial statutes, directories, local newspapers and brand books have been carefully searched for companies affected by the Ordinance, and letters and copies of the Ordinance have been sent to over two hundred companies. A large number of these, as soon as made aware of the requirements of the law, at once filed applications for licence and paid the prescribed fees. A few companies required more than one notice before complying with the Ordinance and there are still several who are reluctant to do so, some of whom, there is reason to believe, will remain recalcitrant until the penalties prescribed by the Ordinance are enforced and an example made. By reference to the appendix it will be seen that 103 companies have been licensed since the new Ordinance came into force adding \$13,910.70 to the Territorial revenue, and a number have applied for reissue of their licence under the new Ordinance. At the close of the year there were several companies who had signified their intention of taking out a licence and, though many of these have already paid their fees, various reasons delayed them in filing the required documents.

In the opinion of the law officers of the Territories fraternal assess-

ment insurance societies, such as the various Orders of Foresters, are not affected by the Ordinance and therefore neither pay fees into the treasury nor, with two exceptions, file any returns with this Department. I would suggest the advisability of considering, at an early date, the introduction of legislation giving the Territorial Secretary power to at least compel the filing of such returns as would show the solvency of all organisations doing business in the Territories and their methods of conducting their business. In the appendix will be found a list of all foreign companies authorised to carry on business within the Territories.

Under The Foreign Companies Ordinance of 1897 all companies which had taken out a licence were required to file an annual return. Prior to last year this requirement had not been honoured in the observance but after a certain amount of correspondence these returns were, without exception, filed.

It is, I believe, almost an axiom amongst those connected with the manufacture of butter and cheese that cereals prosper at the expense of creameries. This theory seems to hold good in the Territories, and the increasing crops of grain will account for the large number of associations that have ceased operations, particularly in the eastern portion of Assiniboia. A large number, too, from the returns received by the Department, appear to find it more profitable to lease their buildings and plant to the Department of Agriculture at Ottawa, which at present supervises the following creameries in the Territories: Calgary, Cardston, Churchbridge, Edmonton (South), Fort Saskatchewan, Grenfell, Innisfail, Maple Creek, Moose Jaw, Moosomin, Olds, Prince Albert, Qu'Appelle Station, Regina, Red Deer, Saltcoats, Saskatoon, Tindastoll (Innisfail Station), Wetaskiwin, Whitewood, Yorkton. In the appendix is given a list of the creameries formed under the Ordinance.

In 1891-2 an Ordinance respecting benevolent and other societies was passed enabling any number of persons, not less than five, to become incorporated for any benevolent or provident purpose that does not clash with the other Ordinance dealing with the operations having gain for their object. It is strange that the opportunity thus afforded the residents of the Territories for the formation of sick and burial clubs and other kindred associations of mutual assistance and relief—institutions that when properly conducted have been keenly appreciated in Great Britain and the older provinces of the Dominion—have up to the present time been wholly neglected, but the provident instinct, so noticeable on this continent in the enormous numbers who have availed themselves of mutual assessment insurance against fire and death, will be certain in the near future to turn the attention of our settlers to this means of relief.

It is, perhaps, hardly to be expected that settlers absorbed in the more pressing concerns of making for themselves new homes and surroundings should have leisure to devote, to any great extent, in developing the means of recreation and mental improvement placed at their disposal by the establishment of mechanics and literary institutes, the facilities for which are provided by The Mechanics and Literary Institutes Ordinance and, up to the present, only the residents of Whitewood, Hillburn and Prince Albert have organised under this Ordinance, but it may be confidently expected that each succeeding year will show a steadily increasing movement in this direction.

Any number of persons not less than ten may form themselves into a company for the purpose of establishing one or more public cemeteries outside

the limits of any town or village, or within such limits if permission be given by bylaw of the town or village concerned. The method of organisation being simple and inexpensive a number of these companies have been established throughout the Territories, a list of which will be found in the appendix.

On taking charge of the legislative library I found it advisable to classify the books under some well known system and, with the sanction of the Government, adopted the Dewey system of decimal classification which is now employed, with most satisfactory results, in many of the larger public libraries in Canada, and is almost universal in the United States. In this system the subjects are divided into nine classes, numbered 1 to 9. Books so general in character as to belong to no one of these classes are marked 0 and form a tenth class. Encyclopædia, magazines, periodicals, catalogues and works of bibliography and library economy are included in this class. Each class is capable of subdivision into nine divisions and, if necessary, each division may be further subdivided into nine sections. For example, history is in class 9, the history of Canada is in division 7 (North America) section 1. All works, therefore, relating to the history of Canada will be found numbered 971. Canada, however, is further subdivided, and all works bearing on the Hudson's Bay are placed in section 1, those of Ontario in section 2, etc. So that if it be a member's wish to refer to, say, Lord Strange's Report on Hudson's Bay it will be found, with all books on the same subject, numbered 971.1. Similarly the Hon. David Mill's Report on the Boundaries of Ontario will be found under 971.2. These books are, as far as possible, arranged on the shelves in numerical order but, owing to the shelves being built into the bookcases modifications of this rule have occasionally been compulsory where the size of the book would not adapt itself to this arrangement. It is strongly recommended that any book shelves added to the library be made movable. A Macey card cabinet has been added to the library for the purpose of cataloguing and now any book may be found without trouble, either under its subject in the class catalogue, under its title, or under the name of its author in the dictionary catalogue. The advantage of a card catalogue is that it can be expanded indefinitely. A catalogue of all books in the library other than blue books, official reports, etc., has been typewritten, up to the end of December, 1901. Since the first of January, 1901, 380 books have been added to the library by purchase and presentation making a total of 6,091 on the library shelves at the end of the year. A list of these additions is attached, also classification showing how the volumes in the library are divided.

In comparing the books at present in the library with previous lists and invoices a number of volumes were found to be missing. Efforts have been made to recover these, in some instances successfully, but I regret to report that several volumes forming parts of sets cannot, so far, be traced and I am of opinion that there is very little hope of recovering them. By their absence the remaining volumes of the set are rendered practically valueless. I may instance the second volume of Hamlet in the variorum edition of Shakespeare, three volumes of Poe's collected works, a full edition of Wordsworth, Lord Roberts' Forty Years in India, and many others. I would recommend that a set of rules and regulations governing the management of the library be prepared in which a limit of time is fixed during which a volume may be absent from

the library, and a name plate with this notice pasted in each book. Several books that have become more or less dilapidated should be rebound. Racks for holding current newspapers could be added with advantage, and a more commodious reading room would be a great boon. A list of newspapers, periodicals and magazines to which the library is a subscriber will be found in the appendix.

I have the honour to be, Sir,

Your obedient servant,

EDW. J. WRIGHT,

Acting Assistant Territorial Secretary.
